

Source Code General Information:

The Source Code is how the district and NDDPI can differentiate which grant (funding source) the funds are being expended and claimed. The NDSDFARM Manual is updated with this source code information. The year of the grant award notification from the USED is the source, not the fiscal year the district is awarded or spending those funds.

A source code is needed for ALL Federal fund tracking with the same Project Codes and multiple years of funding. It is not required if a program does not have multiple funding years **(All ESSER funding is one-time funding with its own Project Code, so no source code is needed).**

To clarify, it IS required for all programs awarded every year, even if you, as the district, have spent all prior year's funds.

If you ever question what the source code is for a grant, it will appear on the Contract/grant award under the Grant Award Information – Funding Source

The example below for Title IV:

Project 078 for 2021-2022 granted funds would have the source of 2021.

Grant Award Information

Type of Award	Project Period (MM/DD/YYYY)	Basis for Award	Federal Awarding Agency
Program	From: 7/1/2021 To: 9/30/2023	Formula	US Department of Education

Funding Source

FAIN Number (Award Number)	CFDA Number	Federal Award Date	CFDA Project Name/Description	Total Amount to State under FAIN Number (Award Amount)
S424A210035	84.424A	7/1/2021	Student Support and Academic Enrichment Grants	\$5,887,415.00
